Plan, plan, plan!

- 7 institutions, 10 work packages, 54 tasks, 130+ researchers
- Project plan, deliverables, GANNT chart, project management team, meetings

Everybody has a plan until they get punched in the face.

Mike Tyson

Reality

- Old data and its availability
- Different languages: “lost in translation”
- Different approaches to
just about everything
- Yet the same:
- Scientific curiosity
- Dedication to the project

Outcomes

- Learn to trust and rely on each other
- Communicate, re-phrase, clarify, verify: are people indeed receiving what you are sending?
- Your best bet: open and non-stop communication!
