independent technical organisation

What  
We Are:

# Current membership

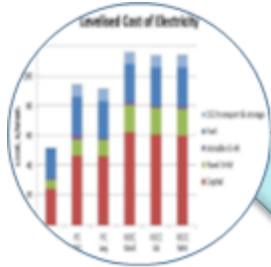

# What do we do?

Assess Mitigation Options –  
Focus our R&D CCS

Resource of 300+ reports

Facilitate technology  
implementation

Facilitate international  
co-operation

14 international research  
networks

Our Core  
Activities  
Are:

Disseminate our results as  
widely as possible

# International Summer School

- 10 years of operation
- Intensive weeks course – all CCS aspects
- Presentations, discussion and group work
- Alumni
  - 506 students
  - 53 countries
  - 102 from 18 Developing countries

# Knowledge Sharing

## South Africa

- Request for support on how to start a test injection
- Report commissioned – CO2CRC Australia
- Collated experience from 25 test injection projects globally
- Produced a guideline on what to consider when you start a test injection

## Mexico

- Request for information on amine degradation
- 3 reports from international workshops
- Collation of list of papers from GHGT conferences and IJGGC
- Presentation by experts organised for IIE

# Guidelines for Storage Capacity Assessments

- Report undertaken for CEM
- Collated experiences and issues associated with storage capacity assessments
  - USA, Norway, Australia, UK etc
- Report used to generate a set of guidelines for countries looking to start a national storage capacity assessment
  - Ghana and Nigeria directly
  - CSLF Offshore Task force/CSLF Technical Group Members

# Thank you, any Questions?
